

# GPRC Clinical Cases eBook – Your companion for exam success

## Preparing for the RACGP CCE or ACRRM StAMPS exam? The *General Practice Clinical Cases eBook* is here to help.

Ideal for all future GPs including medical students, prevocational doctors, GP registrars and International Medical Graduates (IMGs), as well as Fellowed GPs, this resource builds exam readiness, consultation skills, and confidence for practice.

### What's inside?

The book includes:

- Exam information and advice
- Case discussions
- Simulated consultations.

Cases feature candidate–examiner scenarios, many with simulated patients. This third edition reflects current RACGP and ACRRM formats.

Perfect for solo or group study, online or in person. Also available in interactive platform with feedback on responses against exam curriculum (both Colleges).

### Clinical topics covered

The case library spans a broad range of topics to reflect what you may encounter in both exams and everyday general practice:

- Cardiology
- Dermatology
- Emergency Medicine
- Endocrinology
- ENT
- Gastroenterology
- Geriatrics
- Gynaecology / Obstetrics
- Haematology
- Infectious Diseases
- Metabolic Health
- Musculoskeletal
- Neurology and Neurosurgery
- Paediatrics
- Preventive Health
- Professionalism and Ethics
- Renal Medicine
- Respiratory and Sleep Medicine
- Rheumatology
- Sexual Health
- Travel Medicine
- Urology

### Why choose this book?

- ✓ Written by GPs for GPs
- ✓ Covers both RACGP and ACRRM formats
- ✓ Includes practical, exam-style scenarios
- ✓ Supports both individual and group study
- ✓ Updated for the latest exam structures

### Important:

This eBook can only be read on eReader software, such as Adobe Digital Editions, PocketBook Reader or Blue Fire Reader, due to copy protection. This eBook is not provided as a PDF.
